## SECTION 4. First aid measures

### 4.1 Description of first aid measures

#### Skin contact:

Remove contaminated clothing immediately. Rinse the affected skin or mucous membrane thoroughly for 15 minutes under running water.

#### Eye contact:

Rinse the affected eye(s) thoroughly under running water for at least 10 minutes. Further treatment by a physician should follow.

#### Inhalation:

Transfer the affected person(s) to fresh air. If symptoms persist, call a physician.

#### Oral intake/ingestion:

Contact IMMEDIATELY with your country's poison control center

### 4.2 Most important symptoms and effects, both acute and delayed

In most cases, a rapid rinse with water is sufficient to alleviate the symptoms. However, prolonged exposure can lead to irritation and damage to the eyes and skin.
