SECTION 4. First aid measures

4.1 Description of first aid measures

Skin contact:

Remove contaminated clothing immediately. Rinse the affected skin or mucous membrane thoroughly for 15 minutes under running water.

Eye contact:

Rinse the affected eye(s) thoroughly under running water for at least 10 minutes. Further treatment by a physician should follow.

Inhalation:

Transfer the affected person(s) to fresh air. If symptoms persist, call a physician.

Oral intake/ingestion:

Contact IMMEDIATELY with your country's poison control center

4.2 Most important symptoms and effects, both acute and delayed

In most cases, a rapid rinse with water is sufficient to alleviate the symptoms. However, prolonged exposure can lead to irritation and damage to the eyes and skin.

4.3 Indication of any immediate medical attention and special treatment needed

In case of oral intake/ingestion contact with country's poison control center and/or a physician IMMEDIATELY.

SECTION 5: Firefighting measures

5.1 Extinguishing media

All mixtures are non-flammable. Suitable extinguishing media: Water spray. Carbon dioxide (CO2). Foam. Dry chemical. Not suitable extinguishing media: No data available.
