

# SAFETY DATA SHEET

Date of issue: 15.01.2025

According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 1/7

### **SECTION 1:** Identification of the substance/mixture and of the company

#### **1.1 Product Identifier**

REF: HDiS

Product name: DILUENT SOLUTION

REACH registration number: The annual tonnage does not require registration

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

Laboratory reagents intended for in vitro diagnosis

### **1.3 Details of the supplier of the safety data sheet**

#### Manufactured by:

DIMITRIADIS IOANNIS AND SON PC Production of Electrophoresis Products Business Incubator Thermi, Steliou Kazantzidi 47, 57001 THERMI PO BOX 8101, GREECE Email: hellabio@hellabio.com. www.hellabio.com TEL (+30) 2311 999911

### **1.4 Emergency telephone number**

Call (+30) 2311 999911 (Hellabio, Thessaloniki, Greece) for general information. In case of an emergency please <u>contact your country's poison control center</u>.

### **SECTION 2: Hazard identification**

# 2.1 Classification of the substance or mixture according to Regulation (EC) 1272/2008

Protein diluent solution

### Signal word: Danger

Health Hazards	Hazard Category
Fatal if swallowed	Acute Tox. 2

Environmental Hazards	Hazard Category
Very toxic to aquatic life	Aquatic Acute 1
Very toxic to aquatic life with long lasting effects	Aquatic Chronic 1

# SAFETY DATA SHEET

Date of issue: 15.01.2025 According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 2/7

# 2.2 Labeling Elements

Protein diluent solution

Signal word: Danger

Hazard statements	Hazard Class
H300	Acute Tox. 2
H400	Aquatic Acute 1
H410	Aquatic Chronic 1

Precautions/Prevention
------------------------

P203- Obtain, read, and follow all safety instructions before use
P280- Wear protective gloves, protective clothing, eye protection, face protection
P264- Wash hands thoroughly after handling
P270- Do not eat, drink, or smoke when using this product
P273- Avoid release to the environment

### 2.3 Other Hazards

Not applicable

**SECTION 3: Composition/information on ingredients** 

# 3.1 Substances / 3.2 Mixtures

Protein diluent solution

Component	Cas number	Conc%	Hazard Statement
Sodium Azide	26628-22-8	0.1%	H300- Acute Tox.3
			H400- Aquatic Acute 1
			H410- Aquatic Chronic 1

All other components present no significant physical or chemical hazard at the concentration used.

### **SECTION 4. First aid measures**

### 4.1 Description of first aid measures

Skin contact:

Remove contaminated clothing immediately. Rinse the affected skin or mucous membrane thoroughly for 15 minutes under running water. Eye contact:

# SAFETY DATA SHEET

Date of issue: 15.01.2025

# According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 3/7

Rinse the affected eye(s) thoroughly under running water for at least 10 minutes. Further treatment by a physician should follow.

### Inhalation:

Transfer the affected person(s) to fresh air. If symptoms persist, call a physician.

### Oral intake/ingestion:

Contact IMMEDIATELY with your country's poison control center

# 4.2 Most important symptoms and effects, both acute and delayed

In most cases, a rapid rinse with water is sufficient to alleviate the symptoms. However, prolonged exposure can lead to irritation and damage to the eyes and skin.

# 4.3 Indication of any immediate medical attention and special treatment needed

In case of oral intake/ingestion contact with country's poison control center and/or a physician IMMEDIATELY.

# **SECTION 5: Firefighting measures**

# 5.1 Extinguishing media

All mixtures are non-flammable. Suitable extinguishing media: Water spray, Carbon dioxide (CO2), Foam, Dry chemical. Not suitable extinguishing media: No data available.

# 5.2 Special hazards arising from the substance or mixture

No data available

# **5.3 Advice for firefighters**

Wear protective suit with breathing apparatus

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Do not inhale vapors. Remove any contaminated clothing.

Avoid contact with bare skin and use personal protective equipment (PPE). Clean with caution.

# 6.2 Environmental precautions

Avoid spilling into drains and waterways whenever possible. Buffers containing sodium azide pose a danger to the environment.

### 6.3 Methods and material for containment and cleaning up

Wipe spillage with caution using absorbent paper. Do not touch with bare hands/skin. Rinse with water.

# 6.4 Reference to other sections

See section 3 for hazard information of each mixture

# SAFETY DATA SHEET

Date of issue: 15.01.2025

According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 4/7

### SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

Always follow the instructions for use. Each kit should be stored horizontally, as indicated on the label. Use personal protective equipment (wear protective gloves, protective clothing, eye protection, face protection).

# 7.2 Conditions for safe storage, including any incompatibilities

Store in a dry, cool and well-ventilated area between 15-25°C.

### 7.3 Specific end use(s)

This kit in intended for in vitro diagnosis.

### SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters/ Occupational exposure limits (OELs)

Component	Cas Number	ACGIH TLV© 8-hour TWA	CAL/OSHA PEL
Sodium Azide	26628-22-8	0.29 mg/m³ (as Sodium azide)	0.3 mg/m <sup>3</sup>

### 8.2 Exposure controls

Use personal protective equipment (PPE)

Eye protection: Use safety glasses, avoid contact.

<u>Skin/Hand protection</u>: Avoid direct contact of the product with skin, immediately remove any clothing soiled with the product and wash contaminated skin with soapy water. Use personal protective equipment, proper clothing and gloves.

Respiratory protection: Avoid fumes, use in well-ventilated areas.

Thermal hazards: Not applicable.

# **SECTION 9: Exposure controls/personal protection**

# 9.1 Information on basic physical and chemical properties

 Protein diluent solution

 Physical state

 Colour

 Odour

 Odour threshold

 pH

 Melting point/freezing point

 Initial boiling point and boiling range

 Flash point:

 Evaporation rate:

 Flammability (solid, gas)

Liquid Blue/Purple Odourless No data available  $9 \pm 0.2$ No data available  $90 - 100^{\circ}C$ No data available No data available No data available

Date of issue: 15.01.2025 According to Regulation (EC) No. 2020/878 & 1272/2008

Upper/lower flammability or explosive limits Vapour pressure: Vapour density: Relative density: Solubility(ies) Partition coefficient: n-octanol/water Auto-ignition temperature Decomposition temperature: Viscosity: Explosive properties: No data available

23 hPa No data available No data available Miscible with water No data available No texplosive

# 9.2 Other information

No other relevant information

### **SECTION 10: Stability and reactivity**

### **10.1 Reactivity**

The product is stable in the conditions provided by the manufacturer.

### **10.2 Chemical stability**

No decomposition if stored and applied as directed. The product is stable when normal handling is in accordance with conditions provided by the manufacturer.

# 10.3 Possibility of hazardous reactions

No data available

### 10.4 Conditions to avoid

Avoid heat.

**10.5 Incompatible materials** 

No data available

# **10.6 Hazardous decomposition products**

No data available

**SECTION 11: Toxicological information** 

There is no available data for the mixtures/buffers. Toxicity levels of chemicals used in mixtures are stated below. For Information on hazard classes as defined in Regulation (EC) No 1272/2008 see sections 2 and 3.

Acute toxicity

Component	LD50 (Oral - Rat)
Sodium Azide	27 mg/kg

Skin corrosion/irritation: May irritate skin

# SAFETY DATA SHEET

Date of issue: 15.01.2025 According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 6/7

Serious eye damage/irritation: Irritant for the eye Respiratory or skin sensitization: No data available Germ cell mutagenicity: No data available Carcinogenicity: No data available Reproductive toxicity: No data available STOT-single exposure: No data available STOT-repeated exposure: No data available Aspiration hazard: No data available

# **SECTION 12: Ecological information**

# **12.1 Ecological Toxicity**

Mixtures containing Sodium Azide (Cas: 26628-22-8) pose a danger to the environment and aquatic organisms with long lasting effects. Avoid release to the environment and ensure proper disposal methods. Quickly contain and manage any spillage, with appropriate cleanup materials. Do not spill into drains and waterways.

12.2 Persistence and degradability
No data available
12.3 Bioaccumulative potential
No data available
12.4 Mobility in soil
No data available
12.5 Results of PBT and vPvB assessment
No data available
12.6 Endocrine disrupting properties
No data available
12.7 Other adverse effects
No other relevant information

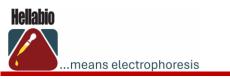

### **SECTION 13: Disposal considerations**

# 13.1 Waste treatment methods

It is crucial to handle and dispose of chemicals in compliance with local, regional, and national regulations to prevent environmental contamination or harm to public health. Users are advised to exercise caution when managing waste, ensuring that disposal methods minimize risks to human health and the environment. Proper waste treatment can involve neutralization, incineration, or disposal at a licensed facility designed to handle hazardous substances. Always consult local waste disposal guidelines and regulatory authorities to ensure full compliance with your country's laws regarding hazardous material disposal.

# **SECTION 14: Transport information**

14.1 UN number or ID numberNot applicable14.2 UN proper shipping name

# SAFETY DATA SHEET

Date of issue: 15.01.2025 According to Regulation (EC) No. 2020/878 & 1272/2008

Page: 7/7

Not applicable **14.3 Transport hazard class(es)** Not applicable **14.4 Packing group** No limits **14.5 Environmental hazards** Avoid spillage to the environment **14.6 Special precautions for user** Not applicable **14.7 Maritime transport in bulk according to IMO instruments** Not applicable

### **SECTION 15: Regulatory information**

This Material Safety Data Sheet (MSDS) was prepared in accordance with Regulation (EC) No 1907/2006 (REACH), No 1272/2008 and No 2020/878. The supplier has not carried out a chemical evaluation or safety assessment for the substance or mixture.

# **SECTION 16: Other information**

The information provided in this Material Safety Data Sheet (MSDS) is intended solely for safety guidance and is based on the best available knowledge at the time of publication. It is not intended to be a warranty. The manufacturer or distributor does not assume any liability for the misuse or improper handling of the product. Always refer to the latest regulatory information and consult with safety experts when necessary.
